Portfolio:

PROFESSIONAL SUMMARY

Data Analyst with experience in Real-Time Analysis (RTA), MIS Reporting, and Workforce Management within fast-paced operational environments. Skilled in transforming operational and business data into actionable insights that improve performance, reporting visibility, and decision-making.

Experienced in monitoring key performance indicators (KPIs), developing automated dashboards, cleaning and validating data, and producing structured reports using Microsoft Excel, Power BI, and SQL. Backed by a Bachelor's degree in Economics and Statistics and currently completing the IBM Data Analyst Professional Certificate to further strengthen expertise in Python, Tableau, and advanced analytics.
